

# Liberty Prior Authorization Formulary Drug List

Effective January 1, 2021

Prior Authorizations are a benefit requirement for certain medications that require your provider to obtain approval from your health insurance carrier before coverage. Prior Authorizations are reviewed by trained Capital Rx pharmacists to make sure you are receiving safe and effective care. Prior Authorizations ensure your care is clinically optimized based on treatment guidelines.

## What kind of drugs need a Prior Authorization?

- Drugs that have serious side effects
- Drugs that can be harmful when combined with other drugs
- Drugs that should be used for certain health conditions
- Drugs that are misused or abused
- Drugs that a doctor prescribes when less expensive drugs might be more effective

Please note, this list is not inclusive of all drugs that require a prior authorization. Some drugs listed below may not be covered by your plan. If you have questions or would like additional information, please contact customer service at the toll-free member phone number on your ID card.
